

Let Us Entertain You

- Outdoor speaker handles temperatures from -22–158F/-30–70C
- Ported bass for great low frequency response
- Dual voice coil: left/right sound from each speaker

Rock 8.3A

The Rock 8.3A is a unique part of our popular Indoor/Outdoor speaker series.

The Rock 8.3A is shaped like an actual rock, which makes it ideal for a private garden environment, the backyard, or by the pool. The Rock can also be seen and heard in many public parks and theme parks around the world. The Rock is hand-made, and is available in a granite color that blends in with the environment. This Rock will sing in rain, snow, and hot sunshine!

The Rock has an 8-inch woofer with ported construction for rich sound. It also features an advanced dual voice-coil design (DVC). DVC allows 2-channel sound from each speaker individually, making both great sound and flexible placement possible.

Specifications
