SIMPLE SETUP

### SOUND THAT PACKS A PUNCH

A truly powerful, small form-factor music monster packed with Klipsch acoustics with integrated power and Bluetooth® wireless technology.

### DESIGNED FOR SIMPLE SET UP WITH YOUR TURNTABLE, TV, COMPUTER OR WIRELESS DEVICE

With an integrated phono pre-amp, Bluetooth® wireless technology, digital optical, analog RCA and USB inputs, your R-51PM is the best performing, most versatile monitor on the planet.

### DYNAMIC BASS EQ

As the human ear perceives frequencies differently with variations in output, the R-51PM will dynamically match the ear's ability to hear lower frequencies. Typically, only available with audio/video receivers, dynamic volume is a first for Klipsch powered monitors. What you get is powerful bass whether the listening volume is low, cranked up or somewhere in between.

### HIGH EFFICIENCY AMPLIFICATION

Forget the expense, clutter and hassle of an external A/V receiver. The R-51PM monitors incorporate individual ultra-low noise amplifiers custom designed to maximize system performance and eliminate the need for external amplification.

### FULL FEATURED IR REMOTE

Allows easy access to system features like dedicated source selection, track controls, and play/pause.

### SYSTEM EXPANDABILITY

Add a subwoofer to enhance for even more bass.
